

ENERGY SAVINGS

up to **40%**

Savings on Heating & Cooling

SOLACE™
WINDOWS

Owens Corning Solace™ Windows and Doors can provide up to a 40% savings on the energy necessary to heat and cool your home during the first year after installation, when you replace all of the windows and sliding doors in your home with SOLACE™ Windows and Doors and Solace™ 366 LoE Argon or, Solace™ Kr90 LoE Krypton Energy Savings Glass Systems. In the event that less than all of the windows are replaced, the Energy Savings Rebate will be pro-rated to the actual percentage of the windows replaced. If you do not have at least 40% savings on the energy necessary to heat and cool your home during the first year after installation, your Authorized Solace™ Windows Professional Contractor will refund the difference of up to a maximum of \$500.00. To make a claim for a refund, contact your Solace™ Windows Professional Contractor for an Energy Savings Rebate Application.
